INTERFACE TO BANK WEBSITES?

HTTP Scripting with cash management websites

Cash management website scripting software:

- Connect ERP, Recon, A/R, A/P, workstations directly to bank websites.
- **Automated file transfer with bank websites.**
- **Bankers:** Save \$\$ for development & support.
- **Treasurers:** Reduce fees, secure, fast, easy to use.
- **HTTP scripting/parsing!!** Not macros or scraping.

- Scheduled up/downloads
- Autoprint reports
- Email files
- Monitor wires in, exceptions
- Event driven functions
- Normalize data
- Don't change current processes

See live demos of TreasuryAgent performing automated file and report download as well as transaction initiation and upload with bank cash management websites.

If you miss us during the conference visit www.bancbridge.com
